

Melstone Valley

Location

Melstone Valley is a subdivision constructed in the early 1980s located off of Brangles Road in Eldersburg, MD.

Description

Quantity management for the subdivision is met by an instream detention basin adjacent to Melstone Valley Way. The Bureau of Resource Management is looking to retrofit the Melstone Valley facility to provide water quality treatment for the untreated impervious area in the watershed. The new facility will be a submerged gravel wetland.

Project Engineer

Carroll Land Services, Inc.

Contractor

Magstone
