

Fire Companies Sign MOU with Carroll County

November 17, 2022

Carroll County Department of Fire & EMS is very excited to announce that all 14 volunteer fire companies in Carroll County have now signed the Memorandum of Understanding (MOU) between the county and the fire companies. This agreement will allow us to place county staff in the fire stations and for volunteers and career staff to work together harmoniously. The signing of the MOU is a huge step forward in the creation of a combination career/volunteer fire department. The county and the fire company presidents have been working toward this goal for over 16 months. Thank you to all involved for your hard work and cooperation, for asking the tough questions and having the discussions needed to get to this point. Great job!
