### **Agricultural Land Preservation**

Sheree Lima, Management and Budget Project Coordinator (410) 386-2082

This project provides ongoing funding for the Carroll County Agricultural Land Preservation program. The program provides an opportunity for landowners to make a long-term commitment to agriculture by offering financial incentives in exchange for property development rights. Preserving farmland with permanent easements helps to maintain the rural character of Carroll County and enables agriculture to remain a viable industry.

The County offers two payment options to the landowners: Installment Purchase Agreement (IPA) or lump sum. The IPA option pays the landowner for the easement over a 20-year period. The lump sum option pays for the easement at the time of settlement. The Maryland Agricultural Land Preservation Foundation (MALPF), a lump sum payment program, is jointly funded by the State of Maryland and Carroll County.

Generally 2.25% of the Property Tax revenue is dedicated to the Agricultural Land Preservation Program and is appropriated in the Capital Fund for easement purchases and in the General Fund for interest payments to landowners in the Debt Service - Agricultural Preservation budget. Appropriations in FY 17 have been reduced to draw down on the existing balance.

The appropriations are listed in the charts below. The Total Appropriation - IPA and Lump Sum are for easement purchases, the Projected Operating Impacts are interest payments appropriated to the General Fund, and the Total Appropriation for Ag Pres, at th bottem of this page includes costs for both the lump sum and IPA options.

## **Stormwater Facility Renovation**

Sheree Lima, Management and Budget Project Coordinator (410) 386-2082

This project provides ongoing funding for a long-term plan to keep existing County-owned stormwater management facilities in compliance with the National Pollution Discharge Elimination Permit and to extend the useful life of the facility. The plan is to evaluate and repair five to ten facilities per year over a 30-year period. The funding will be used to replace metal pipes with concrete, erosion repairs, and replacement of filter media.

### Watershed Assessment and Improvement (NPDES)

Sheree Lima, Management and Budget Project Coordinator (410) 386-2082

Bonds

This project provides ongoing funding to comply with the Federal Clean Water Act. The Act requires the County to secure a permit under the National Pollutant Discharge Elimination System (NPDES) for storm sewer systems. The permit requires the County to map and assess the condition of the storm sewer systems and of the watersheds that discharge into them. The County and the eight municipalities have entered into a memorandum of agreement (MOA) to obtain a joint NPDES permit to address stormwater issues. Under the joint permit, issued in FY 15, the County is required to mitigate impervious surface runoff. As part of the MOA, the County will manage the construction of mitigation projects on behalf of the municipalities. The municipalities will provide funding to the County equivalent to 20% of the construction cost of municipal impervious acres.
