

# Windemere

## Location

The Windemere stormwater management facility was constructed in 2004 and is located near the intersection of Chandler Drive and Poole Road in Westminster in the Liberty Reservoir watershed.

## Description

The drainage area to the facility is approximately 97.5 acres, including 23.75 impervious acres. The new surface sand filter facility will provide water quality treatment, channel protection, and management of the 2- and 10- year storms back to forest/meadow conditions.

## Project Engineer

CLSI

## Contractor

TBD

## Project Budget

Engineering: \$82,840

## Project Timeline

## Updates

This project is in final design.
