

General Order

Department of Fire & EMS

G.O. 11-1-2023

Subject: Northwest Hospital

Date: November 16, 2023

Authority: Michael Stoner, Assistant Chief

I have just been notified of the following:

Northwest Hospital has contacted MIEMSS to notify that they will have power outage and request Mini-Disaster / Code Black status during the following time periods:

Sat, Nov 18 03:30-06:00am

Sun, Nov 19 03:30-06:00am

The power outages are anticipated to impact portions of the ED and most of radiology/CT imaging.

They are putting processes in place to emergently transfer walk-in patients or time-critical patients (via Pulse ambulance).

They will call EMRC to place the hospital on status and call to remove status. The above timeframes are projected (may be slightly later/earlier).

Please post this in Transport units as a reminder to crews.
